	3043			
	Char x 2660	T-JG	8	"Char x 2660" explains 3043, though incorrectly. 3044 is that cross
				He made the note before he reconsidered the parents of O'FALLON.
				2660 is CHAFFEE. 2661 is a sib of CHAFFEE.
				It's also possible that he used 3043, a red from Tet. Post Time, with Tet. Janet Gayle and misread his notebook
				He used either 3043, a red from Tet. Post Time, or 3044 a cream from Tet. CHARBONIER.
